Chinese Society for Biomaterials signed the agreement with European Society for Biomaterials to organize the China-Europe Symposium on Biomaterials (CESB) every two years. In the past years, The China-Europe Symposium on Biomaterials Symposium has met four times alternatingly in China and Europe, namely, Suzhou (China), Barcelona (Spain), Nanjing (China), and Sorrento (Italy).

The CESB symposium will review the developmental trend and the progress on the frontier research of biomaterials sciences and engineering, including progresses in clinical research and applications, particularly in China and Europe. This will undoubtedly further promote and stimulate the growth of Chinese-European communities in Biomaterials Sciences and Technologies.

Welcome to attend the CESB symposium in Hangzhou, China at the flowers-booming season!
